

HOW TO PREPARE FOR YOUR INITIAL CONSULTATION

Download our project starter tool kit to get a jump start on your project. Look through magazines, catalogs, Pinterest, Houzz, blogs and websites for inspiration to help communicate your vision.

Feel encouraged to bring samples of fabrics, finishes and photos of inspiration to our meeting.

Be prepared to answer an initial questionnaire, which will include budget, preferences and lifestyle questions. This will be emailed to you.

Be prepared to discuss the mood you are seeking for each room or overall space in general.

Decide which of our three plans best fits your vision.

Relax and enjoy the process. This is an exciting time. Home should be your happy place and we are excited to be a part of helping you create it.
